

Stoner® S553 (ZIP ME-301S) Pattern Release Mold Release

Product Description

S553 (ZIP ME-301S) Pattern Release Mold Release is silicone free and functions as an excellent pattern release for silicone master molds. It is stable to 350°F and will provide long lasting lubrication under this temperature.

S553 (ZIP ME-301S) contains a high grade U.S.P., FDA, and USDA approved liquid petrolatum. It is an effective lubricant for food processing equipment and will not attack food products because it is free from animal and vegetable fat and oil.

ZIP ME-301S is non-marking and non-toxic.

Envirelease® formula contains no methylene chloride, CFCs, HCFCs, Class I or Class II ozone depleting chemicals.

S553 (ZIP ME-301S) Pattern Release Mold Release ADVANTAGES:

- Saves time by allowing molded parts to be removed quickly and easily from molds.
- Keep parts from sticking.
- Multiple part releases per application
- Formulated to provide high levels of user and environmental safety.
- FDA and USDA approved liquid petrolatum.
- Colorless and non-staining.

Uses

S553 (ZIP ME-301S) Pattern Release Mold Release is an effective anti-stick lubricant, release agent, and mold release for use with molded materials and food processing equipment:

- Plastics
- Waxes
- Rubber

Directions for Use

Recommended Procedure

Hold can 8 to 10 inches away from, and spray a thin coating on, the mold. For best results, do not overspray. The fast drying time of this product may require adjustment in your production process.

Storage and Handling

Do not puncture or incinerate container. Store in a cool, dry, well-ventilated area away from all sources of ignition. Do not expose container to heat or store at temperatures above 122 °F. Keep container away from and do not use near sparks, open flame, heated surfaces, or other ignition sources. Avoid prolonged or repeated breathing of vapor. Avoid prolonged or repeated contact with skin.

Packaging

S553 (ZIP ME-301S) is available in:

- 12-can case of 12 oz cans Part # S553
